SUMMARY

Software Developer with 3+ years of experience building scalable SaaS platforms, data-intensive web applications, and real-time systems across frontend, backend, and cloud technologies. Experienced in delivering production-ready applications using React.js, Next.js, Node.js, MongoDB, MySQL, REST APIs, AWS, and serverless architectures. Currently building AI-powered applications using LLMs, Retrieval-Augmented Generation (RAG), and modern AI engineering tools.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Zustand, TanStack Table, Tailwind CSS, SCSS

Languages: JavaScript, TypeScript

Backend & Database: Node.js, REST APIs, Supabase, MongoDB, MySQL

Cloud & Tools: Git, NPM, AWS, Postman, Vite,

AI Tools: GitHub Copilot, Claude, ChatGPT, OpenAI Codex, Antigravity

EXPERIENCE

Weavers Web Solutions Pvt. Ltd: Software Developer

Feb 2025 – Present

- Developed scalable web apps using **React.js**, **Vite**, **Next.js**, **Angular** and **TypeScript** across multiple projects.
- Collaborated cross-functionally to deliver optimized, secure features and reduce time-to-market.
- Built a **serverless** solution using **Supabase** and **Stripe (Edge Functions)** for one project; also created **Node.js APIs** and deployed via **AWS**.

Underscore Technology Private Limited: Junior Frontend Developer

July 2024 – Feb 2025

- Translated **Figma** designs into responsive, user-friendly web apps using **React.js**, **Next.js**, and **Tailwind CSS**, following modern frontend best practices.
- Improved application performance by 30% by optimizing components, API calls and building **reusable components**.

MG Tathya Solution Private Limited: Associate Programmer Analyst

June 2023 – July 2024

- Developed and maintained web apps using **React** and **Next.js**; applied OOP principles and fixed performance bugs.

PROJECTS

QR Flow Genie – AI-Driven Retail Management Platform

- Built a multi-tenant SaaS platform for super admins, store owners, and managers to manage products, vendors, and store operations.
- Developed high-performance data tables using TanStack Table, supporting 50,000+ products per store with efficient filtering, sorting, and pagination.
- Implemented Server-Sent Events (SSE) for real-time updates and built QR code generation and bulk printing workflows.
- Developed bulk product onboarding through CSV/PDF parsing integrations, reducing manual product entry efforts.

KonnectX – Serverless Live Streaming Platform

- Built a serverless live-streaming platform using **React (Vite)** and **Supabase**, enabling users to go live on **YouTube/Facebook**.
- Integrated **Stripe Connect** via **Edge Functions** for payments and revenue sharing.
- Handled real-time **comment sync**, **Supabase auth**, and all third-party integrations end-to-end.
- Tech:** React (Vite), Supabase, Stripe Connect, Edge Functions, OAuth, YouTube & Facebook APIs.

Indimuse (OTT Platform)

- Built core features like **child lock**, **subscriptions**, and **admin content controls** (add/edit/update) using **Next.js**, **MongoDB**, and custom APIs.
- Implemented SSR for performance and responsive UI with **SCSS** and **HTML5**.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Government Engineering College, Chaibasa

2020 - 2023

9.4 CGPA

Diploma in Computer Science & Engineering

Government Women's College, Jamshedpur

2017 – 2020

85.56%
